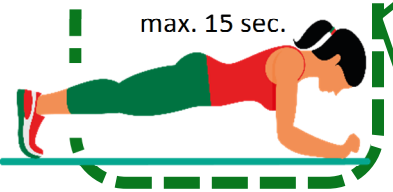
HELICOPTER

Can you do this? Try!

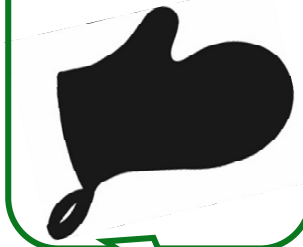


"Plank"
max. 15 sec.

What is this?

11

What is this?



Describe and tell!

What is this?

Can you calculate?

6 + 4

THE END

Preschool, level 4c

2-3 players and a dice. Roll the dice. The player with the highest number, solves the next square. Roll dice again to decide who solves square number 2 etc.

Help and ideas:
Show the number with your fingers. What is the thing "in the square" used for?

Describe- and tell squares: clothes, colours, gender, feelings etc.
And then a question to use fantasy: why is he/she happy/sad/angry…? What just happened? What happens next?

All players do all exercises.

Have a great time.
